

Community Health Accelerators Initiative (CHAI) Course Library

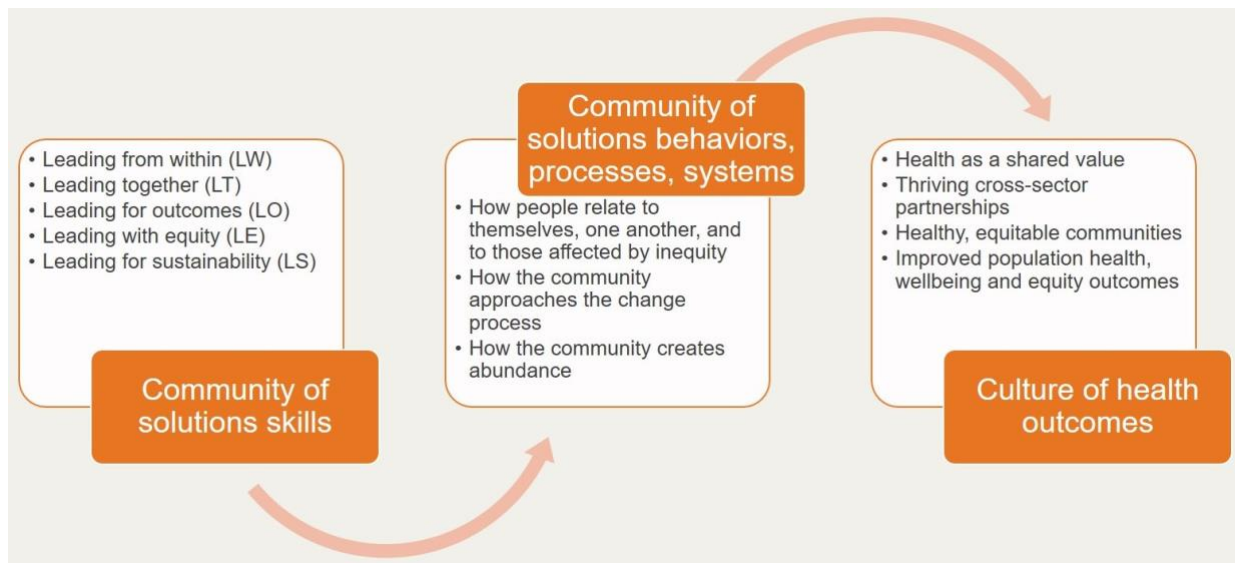

CHAI courses help change agents gain skills and tools to improve community health, well-being, and equity. It is designed for any community, anywhere, at any stage of its transformation journey.

Links to the virtual modules and companion documents are available below. Modules cover an introduction to 100 Million Healthier Lives (100MLives) and leadership concepts for community health improvement. We strongly encourage you to start with the “Introduction to 100 Million Healthier Lives and Community of Solutions Skills” modules before exploring more advanced courses.

Introduction to 100 Million Healthier Lives and Community of Solutions Skills

Description

These modules provide an overview of 100MLives and some of the resources that members have used to create change in their communities. It also offers an overview of the Community of Solutions (COS) framework, a core set of skills that we believe will help you to successfully tackle any health, wellbeing, or equity challenge.

Leading from Within

Description

Leading from Within (LW) skills involve one's inner journey as a leader, including the ability to know oneself and what brings one to leadership, reflect, "fail forward," and change as needed. In addition, it involves seeing and committing oneself to unlocking the leadership of others, especially those with lived experience of inequity. Modules in this course cover the practice of asking open and honest questions, Parker J. Palmer's Habits of the Heart, and putting identity and integrity into leadership.

Leading Together

Description

Leading Together (LT) skills are grounded in the perception of the community as a dynamic network of interacting people, organizations, structures, and systems related to a place. It is necessary to lead together with others in a community to create effective, equitable change. Modules in this course cover effective teamwork, creating a space for collaborations, and partnering with people with lived experience of inequity in co-design processes.

Leading for Outcomes

Description

Leading for Outcomes (LO) skills support communities in applying design skills to co-create a theory of change, identify measures, test the theory, and plan for implementation and scaling up in a way that makes these tasks easier. Modules in this course cover innovation and design thinking, improvement science, and implementation skills.

Leading for Equity

Description

Leading for Equity (LE) skills integrate and apply Leading from Within, Leading Together, and Leading for Outcomes skills to address equity at a population and structural level. Modules in this course cover core principles for addressing equity, understanding implicit bias (LW), touchstones to create safe, equitable spaces for collaboration (LT), and using data to both identify who might not be thriving and map systems that perpetuate inequity (LO).

Leading for Sustainability

Description

Leading for Sustainability skills facilitate an ongoing process of transformation in a community (generative sustainability) as opposed to maintaining programs. Modules in this course will discuss approaches to foster sustainability of political and cultural environments, resources needed to maintain and scale change, and people to lead change in the community.

Modules
