Example: Mara Lee, Midwest Health
What does respectful team-based care look like to you?
Support national efforts to implement reliable evidence-based care for women and newborns around the time of birth, leading to a reduction in maternal mortality in the United States (US) in 2021 compared to 2016.

Facilitate locally driven, co-designed, rapid improvements in 2-5 communities targeting the interface of health care delivery, the experience of birthers, and community support systems. The goal of these projects is to test and scale up maternal care supports and to create a learning network to test and learn across participating communities aimed at improving equity, dignity, and safety while reducing racial inequities in maternal outcomes.
Today’s Agenda

• Welcome & Introductions
• Team-Based Care: Care with Birthing Persons and the People Who Support Them
• Related Resources
• Follow-Up & Staying Connected
Goals for Today’s Webinar

• Introduce team-based care, specifically the unique roles doulas play within care teams and across the continuum of care,

• Surface patient experience data and the themes from women’s experience narratives and consider specific ideas aimed at what we can do differently, and,

• Outline strategies frontline teams might test for working with women with lived experience in new or more impactful ways.
Today’s Facilitators

**Linda Jones**
Birth and Postpartum Doula
Co-Founder, Black Women Birthing Justice

**Monica McLemore, PhD, MPH, RN**
Associate Professor of Family Health Care Nursing
University of California San Francisco

Improve Equity, Dignity, & Safety in Maternal Health

The **Better Maternal Outcome Rapid Improvement Network** is a free initiative aimed at connecting hospitals and providers from across the country who are committed to improving health outcomes by delivering safe, equitable, respectful care of women and their babies.

The goal of the **Network** is to equip participants with the knowledge and skills needed to reliably implement promising practices and improve care delivery for all women and newborns.
