Run Chart Template
Developed by Richard Scoville, PhD. (richard@rscoville.net)

Enter dates or observation numbers into the green cells at right. (clear the sample data before you begin)

Enter your data values into the blue cells. Goal values are optional.

Don't leave any blank cells in the Date/Observation column.

Enter an 'X' into the End Median column to mark the last row to be included in the median

Enter your graph title, x axis, and y axis label into the cells provided.

Use the boxes below the graph to annotate where interventions were introduced. Drag the box to the data point on the graph. (Note: This may require some formatting adjustments.)

Use regular Excel commands to configure the graph.

See sheet ‘Rules for Interpreting Charts’ for information about interpreting charts.

Graph Title

Graph Label
Y Axis Label
X Axis Label

Enter your graph title, x axis

and y axis label into the cells

provided.

Use regular Excel commands
to configure the graph.

See sheet ‘Rules for Interpreting Charts’ for information about interpreting charts.

Add intervention details here
and drag to corresponding data point on graph.

Add intervention details here
and drag to corresponding data point on graph.
