Bring *Escape Fire* to Your Campus with a Free DVD

Last year, a nationwide medical school screening event brought *Escape Fire: The Fight to Rescue American Healthcare* to 60 university campuses. On September 17, the IHI Open School is teaming up with *Escape Fire* to do it again -- only bigger and better! Find out more about the film, which follows dramatic human stories and leaders fighting to transform health care, and [view the trailer here](#).

To take part in this year's special event, [apply by August 19 to receive a FREE *Escape Fire* DVD](#) for your school. The DVD will be your school's to keep, so that after the September screening anyone on campus can view the film as often as they'd like. In addition to the DVDs, *Escape Fire* will be providing promotional materials and support.

If interested, email rebecca@ourtimeprojects.com by August 19.

IHI Open School Course Improvements: Updates to QI 101

Last week, the IHI Open School team shared the news of a new course and plans for expansion. (If you didn't have a chance to give us your input, [we'd still love to hear from you!](#)) Along with the excitement over "what's new," we'd also like to announce an update to our existing content.

As medicine and technology (including online learning platforms) continue to evolve, so do we. If you've taken [QI 101: Fundamentals of Improvement](#) in the past, we invite you to take another look. Each lesson has been updated with new research, articles, and statistics. In addition, we've implemented all kinds of improvements based on your feedback -- including more examples, more videos, and more international data.

As we continue to make improvements to our existing courses, please keep in touch. [As always, we can't thank you enough for your feedback and participation.](#)

WIHI: Integrating Physical and Behavioral Health -- Illustrations from the Front Lines

[The next WIHI \(Thursday, July 25, 2-3pm ET\)](#) will showcase leaders and organizations that are at the forefront of redesigning care for patients and populations in need of primary care and mental health services. By offering both, often in the same location, providers can help their patients connect the dots between body and mind, and improve underlying health problems in a more holistic fashion. We hope you'll join us for this important and timely discussion.

Community Updates

Welcome, New Chapters

Frontier Nursing University, **Kentucky, US**
Washburn University, **Kansas, US**

Seeking Mobile App Testers!

IHI is looking for a dozen student volunteers to download and test the newly developed IHI Events Mobile App! This app will debut at the IHI National Forum and we need your feedback to improve it. Please email openschool@ihi.org if you're interested.

Keep the IHI Open School team in the loop! Tell us what your Chapter is planning at openschool@ihi.org and you may be featured in our next newsletter!
