- January 2011 Chapter Call
- Monthly meetings on quality and patient safety topics
- Attendance at OSUMC Quality Committee Meetings

# The Safe Surgery Project: Development and Assessment of Quality Improvement Education at The Ohio State University

**Participants:** 40 First Year Medical Students

**Each participant:**
- Participated in a three hour orientation that included basic operating room etiquette, role playing the checklist and watching a video demonstrating the proper use of the checklist
- Completed a pre-participation survey that evaluated their interest in and knowledge about quality improvement and patient safety
- Completed several IHI Open School courses
- Audited three or more (3) surgical procedures to evaluate the use of the Ohio State University Medical Center’s Safe Surgery checklist
- Completed a post-participation survey that evaluated their interest in and knowledge about quality improvement and patient safety

# Successes

**Member Recruitment**
- Involvement in Projects
- Successful, well-attended Events
- Abstract from Project Presented at AAMC Conference in June, 2010
- Engaging with Faculty and Quality Department Staff

# Challenges/Goals

- Interdisciplinary Recruitment: More involvement from Nursing, Pharmacy, Management
- Enacting real change and helping to change the culture at OSUMC
- Having an active role in the adoption of quality and patient safety topics into the mainstream curriculum at The Ohio State University College of Medicine
- Assisting with career guidance for future clinicians interested in working in quality
- Helping contribute to the dissemination of information regarding Evidence Based Practice and Evidence Based Guidelines to Medical Trainees
