CONVENED BY

# Aim of Building Opioid-Prepared, Resilient Communities

Build an opioid-prepared, resilient community by **XX** date, as evidenced by:

- Decreased deaths from opioid overdose by **XX%**
- Improved well-being of those experiencing opioid use disorders by **XX%**
- Improved well-being of families of those experiencing opioid use disorders by **XX%**

# Drivers for Building Opioid-Prepared, Resilient Communities

## Aim

Build an opioid-prepared, resilient community by **XX** date, as evidenced by:

- Decreased deaths from opioid overdose by **XX%**
- Improved well-being of those experiencing opioid use disorders by **XX%**
- Improved well-being of families of those experiencing opioid use disorders by **XX%**

### Driver 1

Identify, engage, and stabilize people with opioid use disorders wherever they might be ready to engage

### Driver 2

Coordination across interventions, referrals, and transitions, including seamless access to wraparound services

### Driver 3

People with lived experience involved in developing, delivering, and evaluating solutions

### Driver 4

Recovery supports designed to improve equitable access to treatment and retention in treatment and to support long-term and whole-health recovery and well-being of people and the community

### Driver 5

Prepared, responsive, compassionate, and resilient communities (long-term, in partnership with government agencies and other initiatives)

# Outcome Measures for Building Opioid-Prepared, Resilient Communities

## Aim

Build an opioid-prepared, resilient community by **XX** date, as evidenced by:

- Decreased deaths from opioid overdose by **XX%**
- Improved well-being of those experiencing opioid use disorders by **XX%**
- Improved well-being of families of those experiencing opioid use disorders by **XX%**

## Outcome Measure 1

Decreased deaths from opioid overdose in overall and equity populations (get baselines by race/ethnicity, education level, zip code)

## Outcome Measure 2

Years of potential life gained (with equity distribution)

## Outcome Measure 3

Improved well-being of those suffering from opioid use disorder (with equity distribution)

## Outcome Measure 4

Improved well-being of families of those suffering from opioid use disorder (with equity distribution)

## Full List of Measures

# Change Ideas Detail

## Primary Driver 1

Identify, engage, and stabilize people with opioid use disorders wherever they might be ready to engage

*Change Idea 1*

Naloxone

*Change Idea 2*

Medication-assisted treatment (MAT)

*Change Idea 3*

Criminal diversion to treatment settings

*Change Idea 4*

Screening, Brief Intervention and Referral to Treatment (SBIRT)

*Change Idea 5*

Ongoing access to MAT in expanded settings

# Change Ideas Detail

## *Primary Driver 2*

Coordination across interventions, referrals, and transitions, including seamless access to wraparound services

### *Change Idea 1*

Electronic referral platforms

### *Change Idea 2*

Transitions from incarceration

### *Change Idea 3*

Care coordination

### *Change Idea 4*

Integrated and innovative care teams

# Change Ideas Detail

## *Primary Driver 3*

People with lived experience involved in developing, delivering, and evaluating solutions

### *Change Idea 1*

Peers as recovery coaches

### *Change Idea 2*

Peers to build treatment capacity and support long-term recovery

### *Change Idea 3*

Family peers

# Change Ideas Detail

## *Primary Driver 4*

Recovery supports designed to improve equitable access to treatment and retention in treatment and to support long-term and whole-health recovery and well-being of people and the community

*Change Idea 1*

Social media, online peers

*Change Idea 2*

Employment

*Change Idea 3*

Housing

*Change Idea 4*

Transportation need

*Change Idea 5*

One-stop community resource centers

# Change Ideas Detail

## Primary Driver 5

Prepared, responsive, compassionate, and resilient communities (long-term, in partnership with government agencies and other initiatives)

Change Idea 1

Creating safer environments/ alternative activities

Change Idea 2

Trauma-informed communications

Change Idea 3

Destigmatizing

Change Idea 4

Leveraging natural supports

Change Idea 5

Coalitions
