

Perinatal Improvement Community WebEx Offering – Public Invitation

Wednesday, January 22, 2014 | 12:00PM – 1:00PM EST

"VENOUS THROMBOEMBOLISM (VTE) SAFETY RECOMMENDATIONS: TARGETING MATERNAL PATIENTS"

Dr. Peter Cherouny, Lead Faculty – Perinatal Improvement Community
Michael Wong, Founder – Physician-Patient Alliance for Health & Safety
Sue Gullo, Director – Perinatal Improvement Community

Description

Venous Thromboembolism (VTE) has been recognized as one of the leading causes of maternal mortality and morbidity. Opportunities exist for improvement in the reliable execution of best practice recommendations and partnering with women to understand their risks. Members of the IHI Perinatal Team, Dr. Peter Cherouny and Sue Gullo, have been asked to be part of a development and testing team for a VTE Safety Checklist led by Michael Wong, Executive Director of the Physician-Patient Alliance for Health and Safety.

Join us as we share the current plans underway to continue to test and develop the VTE Safety Checklist and share the state of the state of VTE in the maternal population.

Objectives

1. Discuss the most up to date data that supports VTE as a leading cause of maternal morbidity and mortality.
2. Describe the development of the VTE Safety Checklist.
3. Identify specific components of the care process that have been identified as problem prone and unreliable.
4. Identify opportunities to be involved in testing.

Who Should Attend?

This WebEx is designed to bring together all stakeholders in multiple settings to participate in the most up to date recommendations and together design a plan to ensure that every woman receives the care she should at the right place and right time. Prenatal office staff, obstetrical care providers, women, and nurses in all settings should attend this WebEx. We strongly encourage each hospital to consider inviting the Prenatal Office Staff into your organization to view the WebEx together and take the time to discuss at the local level how you can work together to deliver reliable care.

How Do I Sign Up?

Registration is free and open to all. To register for this session, please follow this link:

➤ <https://ihi.webex.com/ihi/onstage/g.php?t=a&d=651009424>

Upon successful registration, you will receive an email with instructions on how to join the WebEx session on the day of the meeting.

Please do not hesitate to contact Evan Bittel at ebittel@ihi.org or 617-301-4887 with any questions.
